I will take a 5 gallon bucket of paint. We can get some smaller paint cans and divvy it up amongst the group. One five gallon will be fine to start with.

Good afternoon Kim,

What a great way to start off the New Year. I do not believe we have access to the spray cans anymore, however I do know that our Container Site Manager can provide me with 5 gallon buckets of the paint he uses at the repair shop. We do provide our San Antonio Housing Authority facilities we service with these 5 Gallon Lowe's buckets and it works well for their abatement efforts.

I will be speaking with the repair shop shortly to inquire a out the spray cans as well. I look forward to working with you all on this.

Chris,

UC is resurrecting its graffiti removal committee. We have experienced a lot of tagging lately. In the past, Albert provided the City with spray cans of the WM green paint so we could

just spray the dumpsters after they were tagged. Could you please provide the City with some more cans of spray paint?

Our graffiti team will start on the 19th of January so if we could have it by then, that would be appreciated.

Thanks.
