Chris,

Hello. Nice to speak with you. Does Wednesday, Thursday, or Friday between 2 PM and 4 PM work for you? If not we could push it off until next week.

Good afternoon all,

It's a pleasure to meet you (at least virtually) Wes. We certainly do have these capabilities, thank you for inquiring.

I'm looping in a colleague of mine with WM - Aaron Eades. Aaron works collaboratively with our local Operations team members and myself to ensure we have the most accurate/efficient service maps.

I'd be happy to set up a call between us all if you wouldn't mind proposing some dates/times.

Chris,

Does Waste Management even have Geographic Information System capabilities? I can send you a shapefile, but if you don't have GIS it won't be very useful. Alternatively, I could provide an address list in Excel format. Would you prefer an address map? Perhaps we could arrange a phone call to discuss the most useful format for you.

Wes,

Please meet Chris Cox. He is our Waste Management representative. We have been discussing with WM about providing the City's address shapefile for use in the WM database.

Chris, please let Wes know if he should work directly with your or someone in your IT department.
