Good afternoon everyone,
Our driver has completed the UC recycle route today and found the following alleys still inaccessible:
E Aviation Blvd
Odd side of Beechwood Ave
Bowie Dr
Crockett Dr
E Byrd Blvd
E Langley
E Lindbergh
E Wright
Even side of Highgate Rd
Scott Ave
Odd side of Stonegate Dr
Trudy Lane

This has affected 351 customers today.

We will have 2 trash trucks out tomorrow and I will update everyone in the afternoon if there are any alleys the drivers are not able to access.

Totes can remain in the alley as our plan for recovery will be the next service day if alleyways are accessible.

Thank you,

Good Morning Bella,

I had a couple of questions regarding the alley list. First, is the second list you provided the final list? Second, on West Oak, is it only the section going from Meadowland to the transition with Fern Meadow?

Additionally, how long would you like to have the residents place their trash at the curbside?

Thanks,

Regina, please post on Facebook that trash service pick-up in the alley is effected for the residents who live on these streets. The recent rains have caused the alleyways to become saturated and are unable to bear the weight of the trash trucks. Residents can leave their trash out and Waste Management will pick it all up as soon as the soil dries out. The forecast calls for more rain, so patience is greatly appreciated.

Avery, please send out a CTY connect call to the affected residents as well.

Thank you everyone!

Do we know if these alley trash pick-ups have occurred or will occur this week?

Good morning everyone,

The driver on the recycle route has let me know he is unable to service the following streets due to the alleyways being too muddy. He attempted to go down the first one but the front tires started to sink.

- Clear Oak
- High Oak
- Oak Side
- Meadowland

He will keep me posted if there are more alleys along his route today that he finds inaccessible.

Thank you,
