Attachments: [WM Contract Draft Update 07 15 2021 KMT.docx](#)
Importance: High

All,

I have carefully reviewed the contract again this morning and did note several inconsistencies within the contract. Please see my corrections in the attached document.

Chris, I didn't see any specific definition for Apartment complexes or Residential Units that are more than 4 single family units. I'm assuming they fall under Commercial Waste, but we may want to spell this out a bit more.

Chris, I know there are some locations where ALLEY pick up will have to occur. This map needs to be clarified and agreed upon before the City Council meeting on the 20th so we can speak to it. Please provide the staff a copy of that map as soon as possible.

All, I did a "Councilman Neville" review for typos. The document margins are justified so every now and then there are two words smashed together. If you find any that I missed, please correct it. Also, since this document will be flying back and forth over the next 24 hours, please put **the time sent** in the "subject" box and track all changes that you make.

Lastly, this contract is still in legal review by the City. There may be some inclusion of mandatory legal language that needs to be included/adjusted, but will not change the subject matter of the agreement. Those comments will be provided later today.
