Councilman Maxwell (Tom),

It was a pleasure hosting you for a tour of our East Houston Street MRF (Material Recovery Facility) this morning. I very much enjoyed your insight and your willingness to be an advocate for safely collecting hazardous materials + recyclables.

Waste Management's *At Your Door Special Collection*® service is the easiest way to encourage recycling and proper disposal of home generated materials, also known as household hazardous waste, in your community. These hazardous waste items include materials like unwanted paint products, garden chemicals, household cleaners, motor oil, electronics, thermostats, anti-freeze or batteries. The program focuses on sending most of these items to be recycled; therefore diverting these items from local landfills. This special collection is currently available to Universal City residents and is included in the proposed agreement, before the Council this evening. The video link below is an excellent overview of the service and its process:

<https://youtu.be/lVqWgzoCw18>

Residents may request a service and find out more information through the following methods:

Phone: 1-800-449-7587 (Mon-Fri 5:00am-5:00pm PT)

Email: AtYourDoor@WM.com

Website: <https://wmatyourdoor.com/residential/>

I've also included a file WM share's with our municipal partners regarding tips/myths related to residential recycling. This file hits on many of the topics we covered during today's tour. Thank you once again for your time and your candidness. I look forward to this evening's discussion and the opportunity to continue offering solid waste solutions to Universal City.
