RE: Waste Management Reference Letter

Dear Mr. Figueroa,

The City of Universal City grants an exclusive franchise agreement to Waste Management to include:

- Residential service for automated collection of 96-gallon trash and recycle carts. This includes twice per year collection of brush and bulky waste items.
- Special concierge collection of residential household hazardous waste items.
- Commercial collection of large containers for City office, related facilities and commercial customers within the City.
- Landfill disposal services and Material Recovery Facility processing services for solid waste collected within the City.

Waste Management has been an environmental service provider for the City of Universal City for over 20 years. The partnership with Waste Management has been in conformance with the standards of our past agreements, so much so that the City of Universal City recently entered into a new agreement with Waste Management.

If you desire more information concerning these services, do not hesitate to contact me at 210-619-0705 or by email at CityManager@UCTX.Gov.

Sincerely,

Kim M. Turner
City Manager
