Hi Kim,

I'll touch base with College Services tomorrow and will share what I learn.

Thanks,  
Rudy

<image002.gif>  
Good afternoon Kim,

WM currently has a service agreement in place with JISD to service facilities within franchised communities we serve. The same goes for Alamo Colleges District's campuses like Northeast Lakeview College. In speaking to my colleague, who manages our education accounts, I understand that a recycling compactor is currently located on the campus.

WM is open to providing education material and recycling containers to be used at JECA by [REDACTED] and her classmates. If everyone is in agreement, the students can simply load the recyclable material collected into the campus' compactor. If another container is needed onsite for WM to collect the students recyclables for processing, we can update the appropriate account (JISD or Northeast Lakeview) with the appropriate approvals.

We love hearing about her enthusiasm to THINK GREEN and are happy to assist anyway we can.

**Subject:** [EXTERNAL] JECA Recycling Bins

Chris and Rudy,

I received a call from [REDACTED] Garcia. She is a student at the Judson Early College Academy (JECA) at Northeast Lakeview College. She also a student in one of the classes that Mayor Williams teaches.

The JECA students are wanting to recycle items in their building like the students do at NLC. She was not too sure of where to go, so the Mayor sent her to me.

I know that Waste Management services both Universal City and Live Oak so I'm guessing WM has the commercial contract for waste service at the College campus. However, I have seen the tree-compartment recycling bins at the College and I do not recognize them as being a WM product.

Can either or both of you provide me some direction on where or with whom I can direct [REDACTED] so the JECA students can recycle also. Makes sense that she is asking as her generation is all about environmental issues and being green!

Thanks to both of you.
